CLUBS

Arizona clubdom is delighted over the recognition given the state in the election of Mrs. H. A. Gulld as a member of the executive board of the general federation of women's clubs. Mrs. Guild is expected to return from Des Moines where she was in attendance at the biennial convention at which she going to set up shop for themselves. was elected auditor of the federation and it is generally regretted that the club season is over and the clubs will not be given the opportunity to hear first hand the report of the meeting by the delegate who received the honor of being named to serve on the board, It is expected that Mrs. Guild will make an informal report on her return but the detailed account of the proceedings will probably not be given out until compiled by the full delegation from the state in the autumn. That another honor may come to Arizona is hoped by the club women who have been advised that an effort is being made to secure the meeting of the council of the general federation for this state. It is understood that plans are under way for a campaign to bring the council to the Grand Canyon for its meeting in the spring. While there would be difficulty in holding a biennial convention in one of the northern cities owing to the more than thousand of women requiring accommodations the council composed of fewer members could be nicely cared for in the

The policy of the Washington Woman's club of holding neighborhood gatherings during the summer months is meeting with success judging from the initial affair Friday evening at the home of Mrs. Pearl Beatty. Cards and music were the features. The club nembers are awaiting the return of Mrs. Mrs. Charles Aune from Des Moines where she attended the fif-teenth biennial convention of the general federation. Mrs. Aune who is treasurer of the club is one of its most active members and her report of the convention will be of interest.

Mrs. Ella Bayless, the retiring president of the Osborn Woman's club, was the guest of honor at an all-day social meeting of the club held Wednesday at the home of Mrs L. E. Roscoe Arbuckle appeared in a Los Angeles parade the other day in his new \$27,000 motor car. The chassis, furnished by a factory making only high powered cars, cost \$5,000, the press agent says. The cost of material in the body was \$6,500, and the labor ran up to \$10,000, according to the same authority. It is of dazzling blue, weighs about six thousand pounds and has a wheel base of 143 inches. One of the many special features reported is a built-in cellarette, now "a medi-cine chest or something like that." The gasoline tank holds 33 gallons.

William S. Hart has definitely refused all offers to return to the legitimate stage, according to reports from Los Angeles. Al H. Wood recently sent Rufus LaMaire from New York to Los Angeles to see just how much persuasion Mr. Hart would need to yield to an offer of \$200,000 a year, but Hart expressed appreciation and then very flatly turned it down. The star seems sincere in his purpose to retire within a year or two. He has intimated he desires to gratify the lifelong desire of trying a hand at writing books, be a "regular literary feller," as he puts it.

Miss Minter's two years contract called for a wage of \$2,250 per week and the company, she alleges, failed to pay her in full and made deductions of the kind referred to with great frequency. On the other hand, the company claims that Miss Minter has too much temperament and ignored the directions of the general manager. which required all actresses, including stars, to be on duty at 9 a. m. each day. Miss Minter, according to testimony of the officers, came to work when she felt like it, worked when she pleased and laid off when she pleased.

June 18, 1920

What Los Angeles owes to Arizona is more than we would attempt to tell in a brief letter. Los Angeles has benefited greatly from the development of Arizona, but the thing uppermost in our mind today is cotton.

England in building her great cotton industries took Sea Island cotton from near our own Atlantic shores and developed the famous Egyptian long staple cotton in Egypt. Our government transplanted it from Egypt to the now famous Salt River Valley.

A giant of the cord tire industry needing this cotton became interested, and Monday of this week the great Goodyear factory in Los Angeles started running.

We will have to leave the picture to be filled out by the imagination. Think of the enormous industries founded on cotton, of the spectacular development of the cord tire, airplane and balloon, of Arizona and California as the only places in the United States where Egyptian long staple can be grown, of Los Angeles as the great industrial center and seaport of the Southwest.

Then you will see what Los Angeles owes to Arizona.

Los Angeles offers much to Arizona in business and pleasure. Our seacoast is particularly attractive at this time of year. You are invited to come and enjoy the ocean resorts and see how Los Angeles is preparing the products of Arizona for the markets of the world.

The Stillwell is close to the business district but just enough apart to make it pleasant, give an unobstructed view and sweep of ocean breeze and make the parking of automobiles permissible and convenient. It furnishes quick access to all ocean and mountain resorts by fast electric lines near by or by its own large Auto Livery Service where 150 good cars are at your service by the hour, day, week or month, without driver. It is the most convenient place for automobilists, there being several good garages within a
